

Mission Statement

Ambient's mission is to consistently provide our clients and their guests with high quality music and entertainment. We will work closely with our clients to customize an entertainment program conforming to their vision and resulting in a memorable event.

At all times, we will act honestly and professionally with our clients.

For further evidence of our principles in action please, see our Testimonials »

Why Ambient?

Ambient is defined as an encompassing atmosphere. Our goal is to create an encompassing environment for your event. Ambient is also a style of electronic music characterized by slower tempos and relaxing sounds; we include ambient music on our menu, but generally play at faster tempos across a wide range of genres.
