

## Music Collection

Ambient carries an extensive music collection across a wide variety of genres. Ambient DJ primarily uses CDs (due to their portability, high fidelity, reliability and longevity) and high-quality legal MP3 files (i.e., digital music files). Advances in technology allow disc jockeys to maintain their entire music collections in MP3 format on laptop computers, and quickly lookup and cue songs and playlists. Our core song list contains over 25,000 selections and we are continuously adding new music. If you have special musical tastes or we do not have the song that you are looking for, please let us know before the event and we can acquire the selection. Alternatively, you can provide us with a CD, or we can run your i-Pod through our mixing board. For a list of sample music videos, [Click Here »](#)

We are particularly knowledgeable and adept in current dance music genres (hip hop, r&B, reggae, club, electronica). Whether you are looking for a teen dance party or a vintage disco celebration, Ambient will keep your dance floor pumping. To learn more about our dance party capabilities, [Click Here »](#)
